Join us In the FIGHT to END DUCHENNE Muscular Dystrophy!

Duchenne Muscular Dystrophy is the leading genetic killer of young boys. It is 100% fatal. Currently, there is no cure for this debilitating disease that robs our boys of the ability to run, jump, ride a bike, or play sports. Boys start showing muscle weakness around age 3-6, and are usually in a wheelchair by the age of 10-12. Most do not live past their 20s.

There is no known treatment for Duchenne today, but we are close. With your help, there can be one tomorrow! All proceeds from this event will fund promising research for a cure.
